Some Testimonials from Time & Space program participants:

From the dads
Daniel and I really enjoyed the night, I thought it was a well constructed, influential and overall a very positive experience for both of us. Any chance that helps us understand each other better improves our ability to communicate with each other and this is just invaluable. The ability for the evening to allow the boys to discuss their feelings openly and honestly was to me a pleasant surprise. It was also reassuring to hear that other fathers’ experiences were similar to those that Dan and I had been experiencing.  

Jeff H (Rostrevor College).

Good to have the intimate interaction without TV and other distractions.

Jeff H (Marcellin).

From the boys
Great Bonding. It was very good because you can see the side of what the parent thinks. Very memorable – I’ll never forget it. Had a good chat we might not have gotten at home.

Melbourne student (St Kevin’s College Toorak).

Time & Space to Step Up!

We know that families come in all shapes and sizes. If dad is not around a grandfather, uncle (other male mentor) is welcome.

Bill Jennings
Marcellin College is delighted to offer you an opportunity to experience a lifetime memory with your son at the annual ‘Father & Son - Stepping Up’ night.

This single evening program creates the ‘time & space’ for our Year 8 boys and their dad or mentor to take a ‘step up’ and create an action plan for the challenge now and ahead as our boys tackle their adolescent years. Media attention often feasts on the reality that some famous sportsmen and celebrities fall short of being good ‘role-models’ to our boys… but we are confident that the best role-models are much closer to home. ‘Stepping Up’ taps the very best resources in our own Marcellin College community… the dads (or grandfathers, older brothers or uncles) of our Year 8 boys.

Be part of this innovative single evening program that gives a signpost to each boy about the best ways he can ‘step up’ to be a good man. Dads and mentors get a rare opportunity in a busy world to create a moment in time, a memory for the boys of you ‘stepping up’, and taking responsibility to be a guide through the adolescent years.

It’s a rare opportunity that will stay with you forever.
